# TEST RESULTS

B & K's components have earned a reputation as being the best in their class thanks to our stringent standards for audio excellence. Designed, engineered and made in the U.S.A., every B & K preamplifier, amplifier and audio/video control center must pass a comprehensive series of computerized performance tests. With your B & K component you'll receive our signed guarantee of rigorous testing and complete quality assurance.

**B&K Audio/Video Control Centers  
 now with DOLBY PRO LOGIC • TIME LINK**

'Dolby' and 'Pro Logic' TMs of Dolby Laboratories

The result of our uncompromising commitment to quality is exceptional sound reproduction in your home - pristine highs, a smooth mid-range, rich bass response - from a variety of audio and

audio/video sources... at a price that will be music to your ears.

Visit an authorized B & K dealer today for a demonstration of sound, quality and value that will receive a standing ovation.
